Informational Section

Report on Market Operations

The Report on Market Operations will be reviewed during the [MC Webinar](#).

Inter-Regional Coordination Update

Mr. Stan Williams, PJM, was available during the meeting if there were any inter-regional coordination questions.

Data Viewer/eData Update

The Data Viewer tool has been available for members to use since July 1, 2015. It was previously communicated that Data Viewer would run in parallel operations with the legacy eData tool until September 2015. PJM is extending the retirement of the legacy eData tool until mid-November. A future communication will be sent prior to eData's retirement. Please direct any comments or questions to the Tools Refresh Team at toolsrefresh@pjm.com or dataviewerteam@pjm.com.

Markets Gateway/eMKT Update

The Markets Gateway tool has been available in eSuite's Sandbox environment since August 17, 2015. Markets Gateway is the tool replacing the legacy eMKT tool as part of PJM's commitment to simplify members' interaction with PJM. While no functionality or business rules have been changed in the development of Markets Gateway, new security controls will impact participants implementing browserless communications with the application. Interested participants are strongly encouraged to log into the application in PJM's Sandbox environment to become familiar with Markets Gateway and test any browserless functionality. The Markets Gateway page on pjm.com has documentation to help transition between the two applications. Please direct any questions or comments to marketsgatewaysupport@pjm.com.
