

PJM Capacity Market Workshops

Session 2: Stakeholder Feedback

David Kolata, Executive Director
Citizens Utility Board
March 4, 2021

The Main Problem to Solve

Facilitate achievement of state clean energy goals at least cost

Facilitating State Clean Energy Goals Requires:

- Eliminate MOPR
- Solve over-procurement
- Don't get bogged down seeking single RTO-wide solution
- Speed is of the essence
- Allow states to choose capacity resources to support
- Don't punish states that choose clean energy
