Difference in CSP Threshold

*PJM Preferred

- PJM Preferred
- In flagged zone, additional details required for higher of:
 - CSP's max zonal registered (from previous three DYs)
 - CSP's cleared MWs from prior BRAs (for next three DYs)
 - 10 MW
- Details required for C&I: customer name and address, business segment, EDC Acct number (if known)
- Overlapping MWs would not be approved (unless supported by evidence)

- In flagged zone, additional details required for higher of:
 - CSP's max zonal registered (from previous three DYs)
 - CSP's cleared MWs from prior BRAs (for next three DYs) net of DR repurchase share percentage by the CSP for the last DY
 - 10 MW
- Details required for C&I: customer name and address, business segment, EDC Acct number (if known)
- Overlapping MWs would not be approved (unless supported by evidence)
