April 28, 2016

- PJM will be eliminating several redundant definitions section in the Tariff, OA and RAA and combining them into a single definitions section for each governing document
- PJM will be eliminating section numbers associated with definitions and will be listing all definitions in alphabetical order
- Exception: PJM will not be including definition sections that are “stand alone” agreements contained within governing documents. These include but are not limited to: Attachment O (ISAs), Attachment M (IMM), and Attachment GG (UCSAs)
