

Enhancements to Deactivation Rules

Issue Source

PJM/IMM

Issue Content

Given the anticipated volume of generation resource retirements expected in the coming years, there are several areas where the provisions of Part V of the Tariff need to be reevaluated.

Key Work Activities and Scope

1. Provide education around the general deactivation process and the provisions in Part V of the Tariff regarding requests for units to operate beyond their desired deactivation date.
2. Provide education around the current issues associated with situations where units have been requested to operate beyond their desired deactivation date.
3. Develop solution options for addressing the identified issues
4. Review and discuss proposed solutions
5. Refine proposed solutions

Areas in scope:

1. Timing: Deactivation notification timeline.
2. Compensation: Compensation mechanism for units agreeing to operate beyond their desired deactivation date
3. Triggers: Reasons other than the need for transmission upgrades for requesting units to operate beyond requested deactivation date and associated cost allocation

Areas not in scope:

- Cost allocation for units requested to operate beyond their desired deactivation date where the triggering factor is transmission violations.
- Capacity market changes.

Expected Deliverables

- Proposed solution to address enhancements to deactivation rules.
- Corresponding revisions to Part V of the Tariff consistent with the solution proposed will be brought to the MRC and MC for review and endorsement
