

EE Review process and recent FERC order

DRS Meeting
December 8th, 2017

- FERC has exclusive jurisdiction for EE resources. RERRA may file with FERC to seek approval to qualify or prohibit participation
 - Move support for PJM proposal to second proposal
 - Bring second proposal to MIC for consideration
 - If RERRA request approved by the FERC, solution provides a process for coordinating with the EDC to ensure compliance with RERRA request
 - Initially implement for KY

- EE may not participate in KY for 2021/2022 and future Delivery Years without approval by KY RERRA.
 - Firm up IA details.
- Leverage process developed by DRS to implement
 - Require EE providers to itemize EE in AEP and DEOK zones into KY and non-KY location
 - EE plan and EE post installation measurement and verification plan
 - PJM to send list of EE providers with EE identified in KY to EDC for approval
 - EDC will review list of EE providers and ensure they can deliver EE in KY based on RERRA
 - PJM will allow in auction and Delivery Year based on EDC review.

- First read at MIC
