• **Section 2.7:** Remedial Action Schemes and Under Frequency Load Shedding/Under Voltage Load Shedding Coordination  
  o Added language to address coordination around Remedial Action Schemes and load shedding schemes

• **Section 3.6:** Nuclear Plant Deactivations and Retirements  
  o Added language to address the deactivation and retirement process for nuclear units and the regulatory requirements of that process
• **Section 3.7:** Coordination of Functions Between Reliability Coordinators
  o Added language to address the coordination between Reliability Coordinators when a non-PJM member is identified by an Nuclear Plant Generator Operator as a Transmission Entity

• **Attachment B:** Plant Specific NPIRs
  o Renamed attachment to Plant Specific NPIRs

• **Attachment C:** Plant Specific NPIRs Revision History
  o Informational update to NPIR revision history
