Automated Generator Notification Update

Aaron Baizman
Real-Time Market Operations
System Operations Subcommittee
October, 2019
Recap - Goals and Functions

- Applies to CT’s called in Real-Time
- Automatically Call on/Call off CT’s efficiently and timely via ICCP/SCADA/DMP3/JETSTREAM
- Similar to other RTO Implementations (ISO-NE, CAL ISO, SPP,MISO)
- Compliant and Auditable
- Increase Efficiency by reducing Participant and PJM Operators phone time
- Enhance Reliability
- Future - Mandatory for all CTs in the future and may expand to other units
