M-13 Emergency Operations
Revision 73

Glen Boyle
Manager, Operations Analysis &
Compliance
System Operations Subcommittee
November 7, 2019
• Describes a common event analysis process for system events impacting PJM, TO and/or GO
• “Event Investigation Program” changed to “Event Analysis Process” throughout
• Overall streamlining and clarifying of process
• Removed several definitions
• Removed “Responsibilities” section
• Clarified that members may also conduct their internal event analysis using their internal process
• Minor revisions to report form in Appendix 1
• Removed references to Appendix 4 and 5 (Appendices removed in an earlier revision)
  – NERC Event Analysis Reporting Timelines
  – NERC Event Analysis Event Categories

• Unrelated minor change to section 2.3 Capacity Shortage
  – Minor update to Voltage Reduction Summary Table for PSEG
