Rate Formula Template
Utilizing Informational FERC Form 1 Data

General Note: References to pages in this formulary rate are indicated as: (page#, line#, col.#)
References to data from Informational FERC Form 1 are indicated as: #.y.x (page, line, column)

Notes

- 103 A AMPT will maintain and post with informational filings an Informational FERC Form 1.
- 104 B Beginning/End year balances will match Form 1. 13-Month average balances shown on WP-01. Qualifying zonal transmission investment shown on WP04. Excluding any Transmission AROs
- 105 C The revenues credited on page 1 lines 5-9 shall include only the amounts received directly (in the case of grandfathered agreements) or from the ISO (for service under this tariff) reflecting the Transmission Owner's integrated transmission facilities. They do not include revenues associated with FERC annual charges, gross receipts taxes, ancillary services, facilities not included in this template (e.g., direct assignment facilities and GSUs) which are not recovered under this Rate Formula Template.
- 106
- 107
- 108
- 109 D The True-Up adjustment is the difference between (1) the revenues received for the 12-Month period and (2) the ATRR for that 12-Month period after it is known, with interest
- 110 Over Recoveries are entered as negative to reduce the net revenue. Under recoveries are entered as Positive to increase the net revenue.
- 111 E Includes amounts recorded to accounts 428 and 429.
- 112 F Includes only FICA, unemployment, highway, property, gross receipts, PILOT, and other assessments charged in the current year. Taxes related to income are excluded.
- 113 Gross receipts taxes are not included in transmission revenue requirement in the Rate Formula Template, since they are recovered elsewhere.
- 114 G Adjustments required pursuant to Section 6 of the AMPT Protocols. Refunds shall be entered as a negative number to reduce the net revenue requirement.
- 115 Surcharges shall be entered as a positive number to increase the net revenue requirement.
- 116 H Interest required pursuant to Section 2(c) of Protocols. Interest on any refunds shall be entered as a negative number to reduce the net revenue requirement. Interest on surcharge shall be entered as a positive number to increase the net revenue requirement.
- 117
- 118 I Margin Factor equals .40 or 40% of debt service. Margin Requirement is the dollar amount that results from applying the Margin Factor to annual debt service.
- 119 The Margin Factor can only be changed by Order of the Commission
- 120 J Removes dollar amount of transmission expenses included in the OATT ancillary services rates, including all of Account No. 561.1, 561.2, 561.3 and 561.BA.
- 121
- 122 K AMPT will have no wages and salaries. However, all A&G expense incurred by AMPT will be 100% related to AMPT Transmission
- 123 L PTRR debt service projections for zone are shown on WP06. Actual ATRR debt service (for True-up template) will be from AMPT accounting records
- 124 With respect to purchased assets, principal and interest payments related to borrowings in excess of the seller's net book value will not be included in the PTRR or ATRR debt service.
- 125 M O&M and A&G and Property Other Taxes values taken from the column in WP09 that corresponds to the zone
- 126
- 127 N Includes amortization of pre-commercial Start-Up costs booked in account 182.3, approved by the Commission and amortized through Account 566.

Notes

A Gross Transmission Plant is that identified on page 2 line 2 of Attachment H-21A.

B Net Transmission Plant is that identified on page 2 line 14 of Attachment H-21A.

C

43 Project Gross Plant is the total capital investment for the project calculated in the same method as the gross plant value in line 1 above. This value includes subsequent capital investments required to maintain the project in-service.

44 D Project Net Plant is the Project Gross Plant Identified in Column 3 less the associated Accumulated Depreciation.

45 E Project Depreciation Expense is the actual value booked for the project and included in the Depreciation Expense in Attachment H-21A page 3 line 12.

AMP Transmission, LLC 2022 AEP Zone Projected Transmission Revenue Requirement, Docket No. ER21-288-000

AMP Transmission, LLC (“AMPT”) has submitted to PJM Interconnection, L.L.C. (“PJM”) for posting (and publication, pursuant to AMPT’s protocols) the Projected Transmission Revenue Requirement for 2022 (“2022 PTRR”) for the AEP zone of PJM. This 2022 PTRR is submitted pursuant to Attachment H-32B of the PJM Open Access Transmission Tariff (“OATT”). The 2022 PTRR includes fully populated Microsoft Excel files with formulas intact.

The 2022 PTRR attached hereto is posted on the PJM website at:

<https://www.pjm.com/markets-and-operations/billing-settlements-and-credit/formula-rates>

Pursuant to Section 1(b) of the Formula Rate Implementation Protocols found in PJM OATT Attachment H-32B, the 2022 PTRR includes, via the Formula Rate worksheets, sufficiently detailed supporting documentation for data (and all adjustments thereto or allocations thereof) used in the Formula Rate; sufficient detail and sufficient explanation to enable Interested Parties to replicate the calculation of the 2022 PTRR results and verify that each input to the Template is consistent with the requirements of the Formula Rate; and, identifies changes in accounting that affect inputs to the Template or the resulting charges billed under the Formula Rate (“Accounting Change”), including: i) the initial implementation of an accounting standard or policy; ii) the initial implementation of accounting practices for unusual or unconventional items where FERC has not provided specific accounting direction; iii) correction of errors and prior period adjustments; and iv) the implementation of new estimation methods or policies that change prior estimates.

Specifically, AMPT has not implemented new accounting standards or policies, new accounting practices for unusual or unconventional items where FERC has not provided specific guidance, or new estimation methods or policies that change prior estimates. AMPT has made no material changes in its accounting policies and practices from those in effect during the previous rate year and upon which the current rate is based. AMPT has not included any items in the 2022 PTRR at an amount other than on a historic cost basis (e.g., fair value adjustments) and there have been no reorganizations or merger transactions during the previous year. Costs among AMPT and its affiliates are assigned in accordance with its services agreement. There have been no changes from the prior year.

AMPT calculated its 2022 PTRR for the 2022 Rate Year. The 2022 PTRR annual revenue requirement for the AEP zone is \$1,224,450.50 and results in a Network Integration Transmission Service rate of \$56.71 per MW-year for AMPT facilities in the AEP zone of PJM based on the AMPT revenue requirement and Network Service Peak Load data provided by PJM.
